

Custom Venturi Vacuum Pumps – J Series

Ideal for OEM engineers and designers

Creative Engineering • Precision Manufacturing • Extensive Application Experience

When off the shelf doesn't work, Vaccon's engineering expertise and manufacturing capabilities can provide custom solutions to your specifications.

Whether it's as simple as modifying a standard product, or more complex, requiring new products with specific features, or special materials, Vaccon has the solution.

All the pumps shown offer the exact same performance but were made to fit a specific application or machine footprint.

Custom Materials Available: Brass, Stainless Steel, PVC, Peek, PTFE-(Teflon™), Acetal-(Delrin™). Consult factory.

Stainless steel pumps used for filling IV bags with de-ionized water, or corrosive materials.

Custom designed JS-60M-316 stainless steel with butt weld connection for evacuating argon gas for the semiconductor industry.

When size, shape, material and performance matter, it's Vaccon Vacuum Pumps.
